Policies

Class attendance is expected of all students. Be on time and remain until dismissed. Do not leave in the middle of class. You are responsible for all lecture materials and announcements made in class. We will take attendance regularly during lectures with pop quizzes, using iClicker Cloud Polling. The attendance grade (max. 22 pts.) will be awarded in proportion to the number of times you attend. Each student will
be allowed two unexcused absences. Quizzes, which count for 20 points, will be given on Thursdays in recitation.

*Electronic devices such as mobile phones, laptops and tablets should be put away or used only as part of class activities during lectures.*

*Students with disabilities.* If you have a documented disability that requires academic accommodations, please see your instructor as soon as possible. In order to receive accommodations in this course, you must provide your instructor with a Letter of Accommodation from the Disability Resource Center (725 Rose Street, Multidisciplinary Science Building, Suite 407, telephone: (859) 257-2754). We can then collaborate on the best solution.

In order to be fair to all students, dates for exams and homework assignments are firm. It is very important to take each exam on schedule. Missed work may be made up only due to illness with medical documentation or for other unusual (documented) circumstances. If you have a university excused absence or a university-scheduled class conflict with uniform examinations please contact your lecturer as soon as possible, **but at least two weeks before the exam**, so that an alternate exam can be arranged for you.

All requests for corrections to grading should be addressed to your lecturer. Requests should be made shortly after you receive the paper back and must be made within one day of the paper being returned.

Math is more than just manipulation. To earn top grade on exam problems and written assignments it is not enough to have the correct answer, but you must also show the correct reasoning.

I strongly encourage you to make use of office hours, the Mathskeller and The Study. There are many people who want to help you succeed in this class but you need to let us know that you want and need help!

This course uses Canvas for announcements/grades. See

[https://www.uky.edu/canvas/](https://www.uky.edu/canvas/)

for information.

This course uses iClicker REEF Polling.

1. You need to have a REEF student account. You must use your STUDENT NUMBER without the leading 9.
2. You need to enroll in my MA113-Shen-Spring2018 course at Canvas. See helpful video at

https://www.youtube.com/watch?v=DRdwwsxZ6xE

or go to iClicker’s site
