

MA 322: Matrix Algebra, Sections 005 and 007
Spring 2019

Instructor Information:

Instructor: Dr. Jonathan Clark
Office: Patterson Office Tower 757 (POT 757)
Email: jon.clark@uky.edu
Please include “Math 322” somewhere in the email.
Telephone: Office phone: 859-257-4802
Office Hours: MWF 11:00-12:00 and by appointment Other times available! Send an email or stop by my office.

Class Time and Location: Section 5 MWF 12:00 p.m. – 12:50 p.m. CB 337
Section 7 MWF 2:00 p.m. – 2:50 p.m. CB 335

Instructor Web Page: We will have a course shell in Canvas where you will be able to find resources including copies of handouts, announcements and important links.

Textbook: *Linear Algebra and its applications* by David Lay. You may use either the 4th or 5th edition. We will cover most of chapters 1 through 6.

Grading: Your grade will be calculated out of 510 points, distributed as follows. Dates are tentative.

| | |
|--|--------------|
| Quizzes | 20 each × 3 |
| Exams | 100 each × 2 |
| Homework (including online, written and classwork) | 100 total |
| Cumulative Final exam | 150 |

The final exam for section 5 is Monday April 29th from 8:00 a.m. – 10:00 a.m.

The final exam for section 7 is Monday April 29th from 1:00 p.m. – 3:00 p.m.

Your overall letter grade will be based on the following percentages (rounded to the nearest whole percent):

A 90%-100% B 80%-89% C 70%-79% D 60%-69% E 0%-59%

Absences: If you will miss a quiz or exam, you must notify me *as soon as possible*. For homework and/or classwork, we will have a few drop grades so that missing an assignment or two won't adversely affect your grade. You may need to provide appropriate documentation; see Senate Rule 5.2.4.2 for more information about excused absences.

Calculator: For exams and quizzes, the problems will be designed so as not to require a calculator. You may use a basic, scientific calculator to do arithmetic if you wish. You may **not** use a graphing calculator, anything with algebra capabilities, anything that can be programmed, or anything that communicates with the outside world (no cell phones).

Homework: The homework may be both online and written, and may include a classwork component.

For written homework, you are encouraged to discuss assignments with other students, but your solutions must be written up independently. Copying a written solution from another student and submitting it as your own will be considered cheating. Please see the UK office of Academic Ombud Services website (www.uky.edu/Ombud) for information about plagiarism.

Academic Integrity: Don't cheat! It is an extremely serious offense. All students are expected to follow the academic integrity standards as explained in the University Senate Rules.

Disability Accommodations: If you have a documented disability that requires academic accommodations, please see me as soon as possible during scheduled office hours. In order to receive accommodations in this course, you must provide me with a Letter of Accommodation from the Disability Resource Center (725 Rose Street, Multidisciplinary Science Building, Suite 407, 859-257-2754, email address dtbeac1@uky.edu) for coordination of campus disability services available to students with disabilities.

Course Description (from the catalog)

Algebra of matrices, elementary theory of vector spaces and inner product spaces, the solution of simultaneous linear equations using Gaussian elimination and triangular factorization. Orthogonal projections, pseudo inverse and singular value decomposition, least squares approximation. Determinants, eigenvalues and eigenvectors, diagonalization.
