ALUMNI MENTORS

Join us and connect with UK alumni in academe, business, and government, including:

Dr. Connie Fournelle, Director, Boston Fusion, Inc.

Dr. Joel Kilty, Professor, Centre College

Dr. Glenn Lilly, Chief of Mathematics Research, National Security Agency

Dr. Erin Militzer, EDGE Fellow and Professor at Bloomsburg University

Dr. Sonja Petrovic, Professor, Illinois Institute of Technology

Dr. Pat Quillen, Computational Scientist, MathWorks Inc.

Dr. Wendy Weber, Professor of Mathematics, Central College

Funded by the National Science Foundation
GRADUATE STUDY IN MATHEMATICS AT THE UNIVERSITY OF KENTUCKY

With over 200 doctoral alumni, the University of Kentucky Department of Mathematics plays a leading role in the training of future leaders in the Mathematical Sciences in academe, industry, and government. UK offers a supportive atmosphere for students and a top-notch research faculty dedicated to the success of our students.

GRADUATE STUDY WITH THE KENTUCKY ADVANTAGE

Graduate Scholars in Mathematics receive extra support during the critical first two years of graduate study in order to master graduate-level mathematics and move quickly into doctoral research. Scholars receive a $5,000 scholarship for the spring term in each of the first two years, allowing them to concentrate more fully on study and research.

Scholars also receive a $5,000 summer research fellowship in each of the first two years to work with faculty on a seven-week summer research project. Scholars travel with full funding to professional meetings of the AMS, MAA, and SIAM, and network with alumni mentors in academe, business and government.

WHO CAN APPLY?

You can apply to the Graduate Scholars in Mathematics program at UK if you are:

A United States citizen, eligible for graduate study in Mathematics at the University of Kentucky.

And either

(1) A permanent resident of an Appalachian county as specified by the Appalachian Regional Commission,

Or

(2) A member of an underrepresented group in the Mathematical Sciences, including female, African-American, Hispanic, and Native American students.

For a list of Appalachian counties, please see www.arc.gov/counties
